

Woodland Minibeast Hunt

SOUTH-YORKSHIRE
forest
A National *community first* Partner

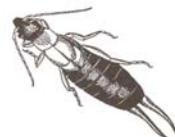

Name. _____

For this game you have to imagine that you have found these 12 creatures in the dead leaves in your local wood. Now you have to use the '[Key to Woodland Minibeasts](#)' sheet to identify them.

Use a different coloured pencil to trace the route on the key that you take for each animal and then write its name in the box below.

The correct name for minibeasts is INVERTEBRATES.

What does this word tell us? _____

Now bring a bag of leaf litter back to the classroom and identify the invertebrates you find. Don't forget to return them to the wood!
