

A.

Write words about each of the following:

- a) words to do with the tree itself, e.g. leaf;
- b) words for groups of trees, e.g. orchard;
- c) animals that rely on trees for food and shelter, e.g. deer;
- d) words which describe trees, e.g. gnarled.

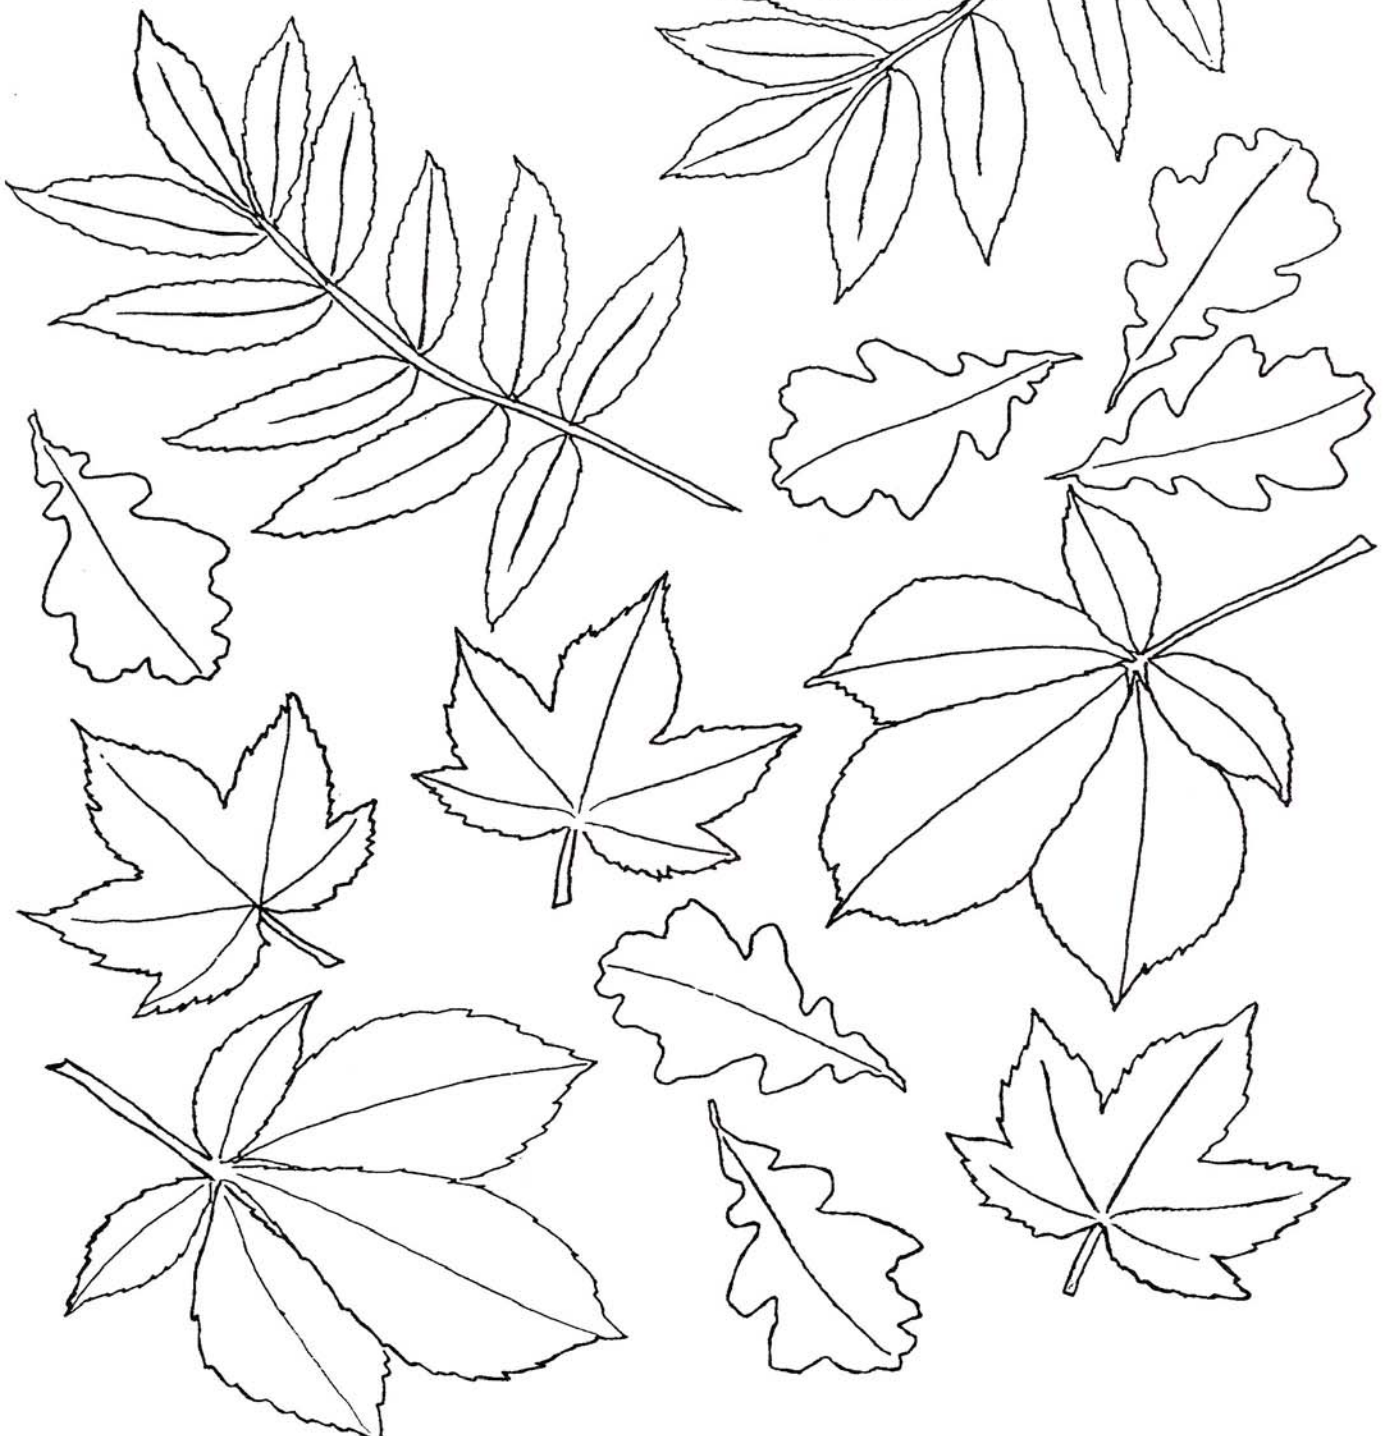

Do this worksheet with some friends and find out more about trees.

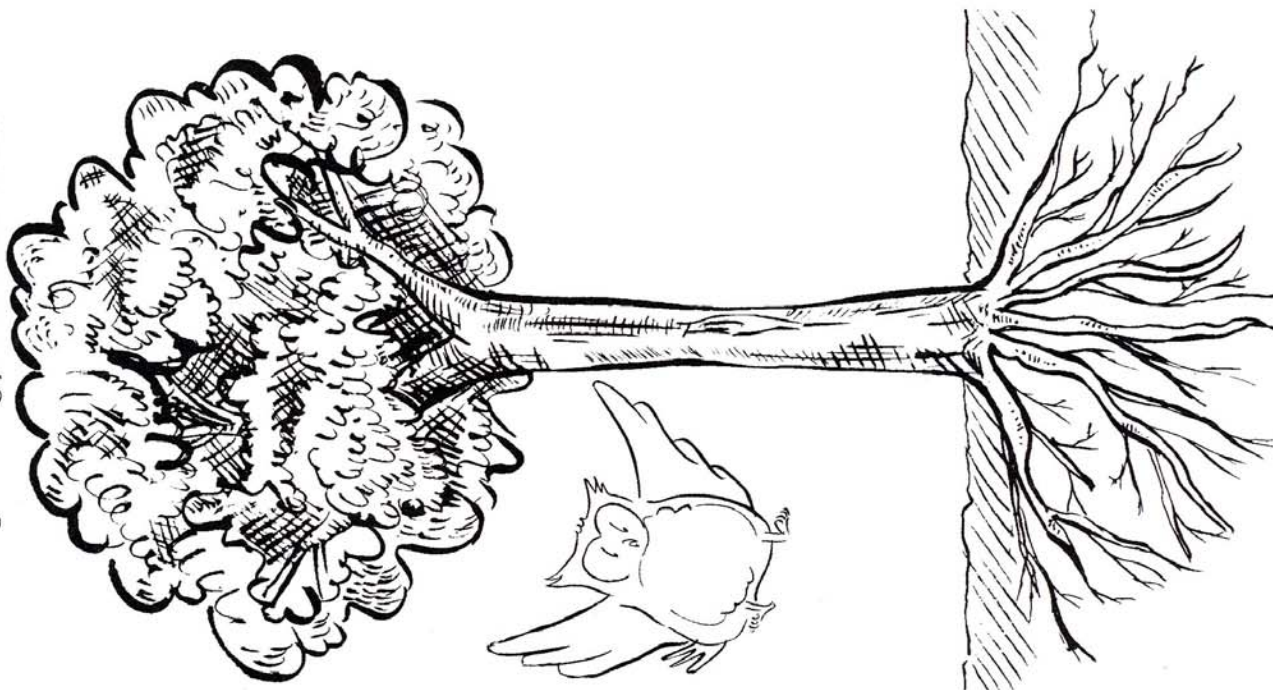

B.

Draw your own worksheet of different leaf shapes and use them to write down as many tree names as you can think of.

Here are some sample leaf shapes:

You need each part of your body to be working well to keep fit and healthy. In the same way a tree needs each of its parts to do special jobs to keep it in good condition. Remember, trees are the largest living plants in the world!

CROWN

TRUNK

ROOTS

branches

leaves

flowers

seeds

bark

wood

anchoring roots

feeding roots

Use some reference books about trees to find out about the different tree parts listed below. Write notes in the spaces about each part's special job in keeping a tree healthy.
